All Just For Kix Families,

The outbreak of a respiratory illness caused by a new coronavirus called COVID-19 may be on your mind, especially how it may affect the TWD's and regular classes.

We are writing to assure you that our company leaders and coaches are reviewing emergency management plans to prepare for the spread of the coronavirus disease (COVID-19). It is going to be a group effort to ensure the health of our athletes/dancers and their families. We want to continue to provide a quality and memorable experience for our families throughout Just For Kix.

JFK has been and will continue to, closely monitor the evolving status of the coronavirus (COVID-19), as well as continue to follow the recommendations prescribed by the Centers for Disease Control and Prevention (CDC). In addition, we are paying close attention to recommendations by states, counties and local government websites where our classes and events are held.

As a precautionary measure, at all TWD's at admissions tables, we will implement hand sanitizers. We are asking that sick or at-risk individuals stay home.

We are encouraging coaches and personnel to act with precaution.

We recommend that another form of acknowledgment is used other than a high five or handshake with teammates. We will discourage the holding hands in awards circles. We will encourage handwashing following routines in which dancers hold hands.

As always, we greatly appreciate your continued confidence and trust!
What Coaches Can Do:

- Bring a spray bottle with a bleach solution for your team area or classroom (1/3 cup of bleach per gallon of water).
- Spray and wipe down the practice area and performance area.
- Instruct dancers to bring a blanket to stretch on.
- Educate your dancers on precautionary measures.
- Remind dancers to wash their hands.

What Parents/Guardians Can Do:

- Remind your dancers not to lick their hands and wipe their shoes. Some do this when they worry the floor is slippery.
- Remind dancers to wash their hands and to keep their hands away from their mouths and eyes.
- If your dancer is sick, do NOT bring them to the competition or class.
- Throw travel-size hand sanitizer in your dance bag.
- Teach dancers how to wash hands.....20 seconds with soap and water!

What DANCERS/ATHLETES Can Do:

- Wash hands frequently!
- Keep hands out of eyes and mouth.
- Bring hand sanitizer in their gym bags.
- Stay home if you are ill.
- Cover your mouth and nose if you are coughing or sneezing.
- Do not share water bottles, chapstick, towels, etc.
